

Conflict Mapping Presentation Notes

Slide 1: Cover Page

Good morning/afternoon everyone.

Today, I will be presenting on **Conflict Mapping**, an important tool used in conflict resolution and peacebuilding. Conflict is a normal part of life. Conflict mapping helps us identify who is involved, what caused the conflict, how parties relate, and possible peaceful solutions.

Slide 2: What is Conflict Mapping?

Conflict mapping is a visual and analytical method used to understand a conflict. It identifies parties, issues, relationships, interests, and power before seeking peaceful solutions.

Slide 3: Why It Matters

It clarifies complex conflicts, reveals root causes, improves decision-making, and promotes dialogue and mutual understanding.

Slide 4: Key Elements

Parties (stakeholders), Issues, Interests and Needs, Relationships, and Power Dynamics.

Slide 5: Types & Causes

Types: Personal, Interpersonal, Group, Organizational. Causes: Poor communication, scarce resources, different values, politics, misunderstandings, lack of trust.

Slide 6: Conflict Mapping Process

Identify the conflict, stakeholders, interests, relationships, power, and then develop peaceful solutions.

Slide 7: Common Tools

Conflict Tree, Stakeholder Map, Onion Analysis, ABC Triangle, and Timeline.

Slide 8: Example

University tuition fee conflict involving students, management, parents, and government. Mapping helps balance interests and find solutions.

Slide 9: Benefits & Limitations

Benefits include better understanding and negotiation. Limitations include bias, changing situations, and the need for accurate information.

Slide 10: Conclusion

Conflict mapping promotes objective analysis and sustainable, peaceful conflict resolution. Thank you.
